LifeCare Holdings, Inc. Opens Second Pittsburgh Hospital

Plano, TEXAS –LifeCare Holdings, Inc., has opened its second hospital in the Pittsburgh, Penn., area. LifeCare Hospitals of Pittsburgh North, located on the Allegheny General Hospital Suburban Campus in Bellevue, Penn., received its first patients earlier this month. The 41-bed facility specializes in the treatment of medically complex patients who require acute care hospital services for an extended period of time, generally more than 25 days.

“We are very pleased to open our new facility in the Pittsburgh area as we increase our market share in southwest Pennsylvania,” said LifeCare Holdings Chairman and CEO W. Earl Reed, III. “This new location allows us to expand both our patient base and physician base and puts us in close proximity to a number of acute care hospitals. We look forward to advancing a higher level of intensive care for medically complex patients in this area of the state.”

LifeCare, based in Plano, Texas, operates 19 long term acute care hospitals located in nine states. Long term acute care hospitals specialize in the treatment of medically complex patients who typically require extended hospitalization.
